3/10/75--ABC News' Bill Gill reported tonight that this morn's NYT report was inaccurate in that it was JFK who stopped CIA-Mafia plot ag. Castro. Said JFK learned of the contract shortly after election and ordered it cancelled. CIA had hired ___?___ Roselli, mafia hit man, to do the job, and unkown CIA agent had delivered money to Roselli. Plan had approval of big Mafia chieftan (I forget name). Last public appearance by Roselli was in fed court in 1969 when an administration lawyer argued that Roselli not be deported as illegal alien because he had, in the past, rendered important services for the country's security. These services were not specified.
